The New Face of Anti-Semitism: Anti-Israel Obsession and Academic Boycotts”

Recent years have seen repeated calls for boycotting Israeli academia. What is the real story behind those boycotts? Why is Israel singled out in such a fashion? Is anti-Zionism nothing more than good old-fashioned anti-Semitism? These questions will be addressed by a distinguished professor at the *University of Haifa* where Arab & Jewish scholars cooperate freely, 20% of the student population is Arab, and the Dean of Research is Majid al Haj.
